

Perfect Panelling

Top quality matchboard-type panelling, in a wide range of profiles for traditional or contemporary effects

- Manufactured from MDF in a range of sizes, thicknesses and profiles
- Quick and easy to install
- Supplied pre-painted or ready-to-paint
- Available in standard, moisture resistant and fire retardant grades

PERFECT
PANELLING

Perfect panelling creates an authentic look, quickly and easily

In both traditional and contemporary interiors, as well as furniture manufacture, matchboard panelling creates a look that's in demand: Perfect Panelling makes it easier to achieve than ever.

MDF for the perfect finish

Manufactured from MDF, Perfect Panelling has no knots or imperfections. It's very rigid, it doesn't warp or shrink and because it's produced in large sheets, its easy to work and install.

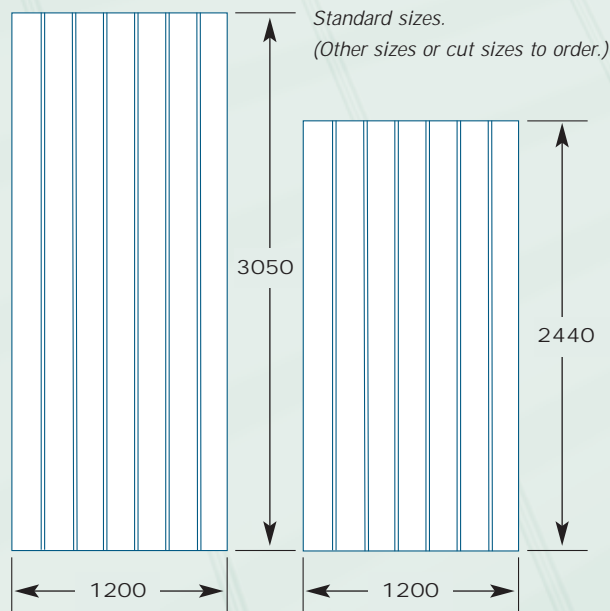

The versatile performer

Perfect Panelling can be specified in standard, fire retardant and moisture resistant grades. This means you can use it in virtually any kind of application, to provide an easily achieved matchboard effect.

Choose from a wide range of paint finishes

Board sizes

Profiles

Profile V 100mm centres

Profile W 100mm centres

All panels have our easy-join edge detail, allowing panels to be butted for invisible joining.

Alternative groove centres: 50, 75, 150, 200, 300mm or combine different groove centres - please enquire for details.

Standard thickness: 9mm

Other thicknesses available - please enquire for details.
